

# What can I eat before surgery?

Do not eat anything after midnight the day before your surgery. This includes food, candy, mints or gum.

# What can I drink before surgery?

Do not drink anything except clear liquids after midnight the day before your surgery.

Stop drinking clear liquids 1 hour before your arrival time at the hospital. For example, if you are told to arrive at 8:00 AM, you may drink clear liquids up until 7:00 AM.

**Please no red drinks**
