Bactoshield CHG 4% Body Wash

- We will give you two 4 oz. bottles of Bactoshield Body Wash. One bottle equals 2 days for washing.
- Please start using 3 days prior to surgery. Use 3 days prior, 2 days prior, the day prior, and the morning of surgery if time permits.

Instructions for Use:

- Wash entire body in shower with your normal soap and shampoo
- Pour Bactoshield CHG 4% body wash on a wash cloth
- Rub over entire body from chin to toes for 2 minutes
- Wash your surgical areas with Bactoshield for 2 minutes, rinse, dry, then repeat for an additional 2 minutes
- Rinse body well
- Dry off with a clean towel

Caution:

- Do not apply Bactoshield CHG 4% body wash to face, eyes or private areas. It may burn.

Bactoshield is used to Help Prevent Infections

Any questions please call the office and speak with one of the Nurse Practitioners.
