

# STUDIO PHOTOGRAPHY

## Without Leaving the Hospital!

### The hospital now offers new parents professional photography

- Your complimentary photo session will take place right in your hospital room.
- The photographer will stop by your room to schedule your appointment. Each photo session takes approximately 20 minutes.
- Our experienced portrait photographers are experts at capturing the love and joy your new baby brings.
- Several poses will be photographed and you'll be able to choose your favorites.

### Tips for getting the perfect portrait

- Feel free to dress your baby or use a special blanket or keepsake.
- We encourage moms, dads, and even siblings (if they're available) to participate. Wear simple clothing, minimal jewelry and avoid anything that might distract from the main attraction – that beautiful baby!

### Fresh 48 Photography

We will capture all the first quiet moments of your newborn's life, including first yawns, little baby toes and fingers - right in your hospital room.

*Receive a complimentary 8x10 with any flash drive purchased in the hospital.*

### Packages

- Packages to fit any budget, with prices starting as low as \$16.95.
- Choose from a wide variety of photo packages as well as digital images, birth announcements and photo keepsakes.
- All major credit cards, cash and money orders are accepted.
- You are under no obligation to make a purchase.
